# Our Mission

Our mission is clear. Empower businesses with cutting-edge solutions. Protect critical assets against emerging threats. Drive digital transformation that fosters growth.

## EMPOWER BUSINESSES

Provide cutting-edge cybersecurity solutions.

## Protect Critical Assets

Safeguard against emerging threats.

## DRIVE INNOVATION

Leverage technologies for growth and competitive edge.

# Strategic Approach

The Four Pillars of Cybersecurity

1

## Discover

Identify and classify critical .

2

## Protect

Implement robust security controls.

3

## Manage

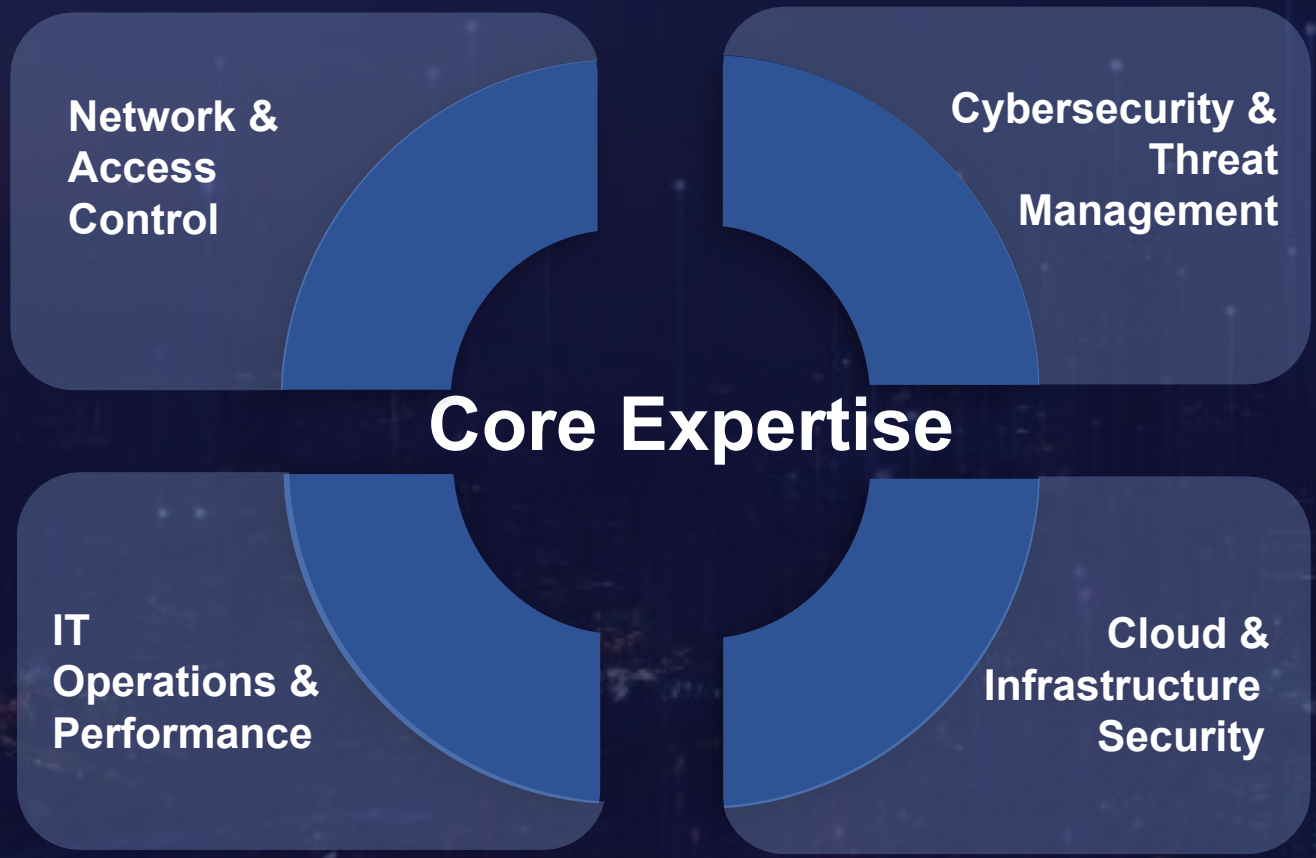
Optimize data governance.

4

## Report

Provide detailed analytics and compliance documentation.

# Core Expertise



### Secure Remote Access & Support

Enable safe remote connectivity.

### Firewall Policy Management & Compliance

Manage rules and ensure compliance.

### Identity Threat Detection & Response (ITDR)

Detect and stop identity-based attacks.

### Data Security, Auditing & Compliance

Secure data and meet regulations.

### Zero Trust Network Access (ZTNA, SASE, SDP)

Enforce identity-based access.

### Secure Web Gateway Solutions

Block threats from web traffic.

### Digital Forensics & Incident Response (DFIR)

Investigate and respond to breaches.

### Vulnerability Assessment & Penetration Testing

Find and fix security gaps.

### Application & Network Performance Monitoring

Track and improve system speed.

### IT Asset & Infrastructure Management

Organize, monitor, and maintain your IT resources efficiently.

### Cloud Infrastructure & IT Security

Defend cloud workloads and systems.

### Backup, Disaster Recovery, and Business Continuity

Ensure fast recovery and uptime.

Comprehensive Solutions

## Remote Monitoring & Management (RMM)

**AnyDesk:**

Secure remote access and control with low latency, lightweight installation, and strong encryption.

## Email & Network Security

**Barracuda:**

Comprehensive email threat protection, cloud application security, network firewalling, and backup/recovery.

## IT Asset & Vulnerability Management

**Lansweeper:**

Automated IT asset discovery, inventory management,
and vulnerability insights.

**Overe:**

Overe is an AI-powered SaaS security platform that helps MSPs protect and monitor Microsoft 365 environments.

## Threat Intelligence & Monitoring

**Flashpoint:**

Threat intelligence and business risk insights with dark web monitoring and fraud detection.

**Focusecure:**

Managed threat detection and security monitoring with proactive incident response.

**Corero:**

Real-time, automated DDoS protection with intelligent traffic filtering and rapid mitigation.

Comprehensive Solutions

## Endpoint Security

**ThreatDown:**

Endpoint Detection and Response (EDR) with AI-driven malware, ransomware, and exploit prevention.

## Backup and Cyber Protection

**Acronis:**

Unified backup, disaster recovery, anti-ransomware, and endpoint protection with integrated cyber resilience.

## Identity & Access Management

**SecureEnvoy (IAM):**

Multi-factor authentication, adaptive access control, and passwordless identity security.

**Fudo Security (PAM):**

Privileged access management with secure credential vaulting, session monitoring, and anomaly detection.

**Threatmon:**

Privileged access management with secure credential vaulting, session monitoring, and anomaly detection.
